Air Ollie Magazine

Introduction

The Air Ollie Magazine is finally back since the start of 2020! This magazine will be published monthly. You can read interviews, development updates, interesting articles and more in this magazine. We would like to hear suggestions and feedback about the magazine in the Air Ollie Discord server.

The future of this magazine

To make this magazine we need you! We are now hiring writers for the magazine. Here are the steps to apply:

1. Join the Air Ollie Discord server.
2. Make a new ticket in the channel [#bot_commands](#).
3. Tell us in the ticket what you are good at and if you have any experience with writing.

If you have any questions, feel free to message Lucaseen#5883 on Discord.

Interview

This week the team interviewed Sheep, one of the two Vice Presidents and Co Founder of Air Ollie.

What do you like about Air Ollie?

I think that Air Ollie is quite unique. We have a lot of things that other airlines don't have, such as our island hopping which I have seen very few other airlines do. We also have great airport and I think they are among some of the best on Roblox. I also like how most people are very kind and helpful.

What do you want to achieve with Air Ollie in 2020?

I hope we can achieve a lot in 2020. This is a big year for us and it is important we take every opportunity that comes around. I hope we can gain many more members. In 2019 we gained around 800 members, I hope we can gain even more than that in 2020.

What do you think about the future of Air Ollie?

I think Air Ollie has a bright future. With dedicated staff members like we have and great developers, we will get places. I've been with the airline since the first day and I can tell that how much we have progressed in the past few years. We have a bright future ahead of us.

Interview done by: Lucas

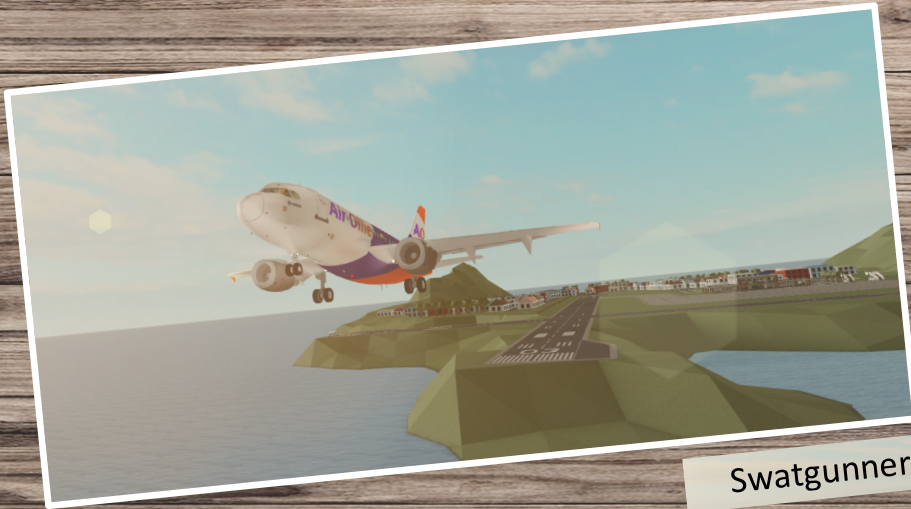

Humberside Airport

Air Ollie recently added it's first UK destination in over 2 years. Humberside, Hull, UK. This is what the president commented on its launch.

"It's a big milestone in Air Ollie, with so many of our group members and staff from the UK it's important we expand into that market to make the feel included. As well as this, I felt it was perfect to build as nobody done it in Roblox before and it is perfect size for the current members of our fleet. We will be operating the Airbus A319, Boeing 737-800 and rarely, the Embraer E190 on this route. All these aircraft carry similar characteristics. It is unclear whether or not the Airbus A321NEO will operate this route yet. The development of the airport itself took two weeks and features scenery of Hull, Grimsby and the Humber river. It is a very scenic approach and gives passengers a more exciting feel for landing. This is also our first airport to have a runway that fully illuminates at night. Vestmannaeyjar is finally complete with this airport and passengers have really enjoyed the first few flights to operate this route. We are very excited to have a future with this airport."

Airline Reviews

8.0

Air Ollie is a very good airline with lots of different opportunities for people who are into Aviation or starting to get into aviation. They have a good fleet and their airports and ground crew vehicles are made very well. The planes are very realistic in terms of the way they move and look. The staff is very friendly, nice and in some ways professional. This is why I think you should fly with Air Ollie.
