Air Ollie Magazine

Introduction

The Air Ollie Magazine is finally back after more than a year! This magazine will be published monthly. You can read interviews, development updates, interesting articles and more in the magazine. We would like to hear suggestions and feedback about the magazine in the Air Ollie Discord server.

The future of this magazine

To make this magazine we need you! We are now hiring writers for the magazine. Here are the steps to apply:

1. Join the Air Ollie Discord server.
2. Make a new ticket in the channel [#bot_commands](#).
3. Tell us in the ticket what you are good at and if you have any experience with writing.

Interview

For the first magazine we interviewed the new CEO of Air Ollie, xXGamerProMateXx.

What do you like about Air Ollie?

I like the staff that I work along with, the airports are nice and detailed which is another reason why I like Air Ollie and the planes have been designed to make people enjoy the flights more. The airports, planes and staff are my favourite part about Air Ollie and how much effort people have put into this airline.

What is your job as a CEO in Air Ollie?

My job at Air Ollie as a working Chief Executive Officer is to ensure everyone is happy, help anyone with things that they may need help with from a LR – SHR staff may need or a passenger that flies with us. I make sure everything is secure from the group to the Discord server. My job also is to make improvements and still host flights.

What do you want to achieve in Air Ollie?

I want to achieve being one of the most active staff at the airline and achieve a great reputation before I resign from my job at Air Ollie. I want to make everyone happy and make people more active.

What do you think about the future of Air Ollie?

I think the future of Air Ollie will be a bigger, stronger airline with great and hard working staff that never give up and always persevere with their jobs. Air Ollie will never get worse and will always grow stronger! The future will be great at Air Ollie.

Interview done by: Lucas

Vestmannaeyjar

We have recently begun flights to Vestmannaeyjar, here at Air Ollie we want to stand out and show off the beautiful country that is Iceland. I feel Iceland hasn't been discovered truly on Roblox.

Vestmannaeyjar is a small town on the Icelandic island of Hæmay. I based the design of the airport off the real thing but made the airport larger so it could hold our A319. I built it with 2 gates so it can have codeshares at it. It has a stunning approach flying low over the town itself only a few meters over the building.

I have decided not to sell this airport which means it will be unique to Air Ollie. This airport will allow us to expand the Air Ollie Iceland brand as well as the newly launched ícehops subsidiary. In the future we have plans to connect Vestmannaeyjar to other Icelandic airports such as Grímsey and Akureyri. The game itself currently doesn't have a destination but one has been nearly finished and we look forward to it being added. I can see a very promising and bright future for this Airport and I look forwards to seeing where it takes us.

Airline Reviews

8.0

Air Ollie is a very good airline with lots of different opportunities for people who are into Aviation or starting to get into aviation. They have a good fleet and their airports and ground crew vehicles are made very well. The planes are very realistic in terms of the way they move and look. The staff is very friendly, nice and in some ways professional. This is why I think you should fly with Air Ollie.

- **AviaLindt**

8.5

Air Ollie is a very good airline. It is mainly due to the social staff who constantly ensure that the passengers enjoy their journey. The airports are also fantastic built, they are built in good quality so that you can enjoy the view while waiting at the airport. Once you are on the plane it is like being in a 5-star hotel. The advantage with Air Ollie is that the prices are affordable for everyone. So definitely try Air Ollie!

Air Ollie Future Plans

In 2019 we achieved what I thought would never be possible. We went from 150 members to hitting 1k. We changed livery and rebranded to something iconic and modern.

In 2020 we plan to expand on what we have created in 2019. We are building a new cabin to make passengers more comfortable and to give us a more unique look from the inside. We plan on updating menus and food to make our service one to be admired in Ro-Aviation. In terms of airports we have seen the rapid expansion of our AO Iceland Brand in Vestmannaeyjar, Grímsey and Keflavik, in 2020 we want to push boundaries.

We have an Airbus A330NEO (900) on order due for delivery at the end of January. With this aircraft we will be exploring new possibilities flying either East or west. I personally think we could build a strong brand in the Middle East in countries such as Jordan and Israel. This isn't completely ruling out America but here at Air Ollie we want to be unique and stand out, America has been explored in Ro-Aviation but places like Iceland and the Middle East have not. In terms of European Airports, we have possible operations in London City and Gibraltar. In early 2020 we will also see the launch of the new A321NEO (LR), this aircraft will launch our new cabin. Our Boeing 737-MAX is ready for release yet because of the FAA we cannot fly it until it is allowed to fly. I cannot day when this will be but we hope it will be in the very near future. We will also start our second mental health campaign on the 737-MAX with a stunning special livery.

Our goal is to hit 2500 members this year and with your help and incredible support we believe we can achieve this. We are so excited for the future and to what 2020 has in store for us!

Quiz

Win a free Business Class rank! Send a Discord PM to Lucaseen#5883 with your answers and you have a chance to win a free rank!
