# The departure of an honorable director

**On the 10<sup>th</sup> of July, 2021,** we had seen the retirement of a remarkable director. Atomibird had worked at Air Ollie for an amazing 3 years. And under his service, we had observed the airline grow and develop. Apart from all his service to the community, Atomibird had also done a lot to help the staff. He had developed a lot of the training and operational structures under which all our staff operate under.

Atomibird's first flight at Air Ollie was at Groningen, one of our first airports, as a Business Class passenger. After a little while, his old airline went out of operations and he started his career at Air Ollie. He first started out as an LR, but then, after some long inactivity, he went into the higher ranks and became a director.

## A new director

In lieu of Atomibird, on the 8<sup>th</sup> of July, 2021, Omarkrimly had become Director-appoint, and had officially become director when Atomibird retired. Omarkrimly has been in Air Ollie for less than a year, but his activity and productivity warranted this promotion.

## Developer Frenzy!

**Development** has been rampant recently at Air Ollie. To begin with, Malta's inaugural flight will be in late august. The first (of 2) arrival airports was revealed to be Dresden Airport in Germany. And for this occasion, Air Ollie is proud to reveal the new German Livery for Air Ollie. This livery will be flown on the new Airbus A321 NEO, which will be flown more often in the foreseeable future.

Along with that, we have more updates on an airport that hasn't been talked about in recent times. While the main focus recently was Malta and the new Boeing 777-300ER, we would like to show some updates on Vágar airport. Here are some sneak peeks on what that looks like so far (featuring the A321 NEO):

The developers of Air Ollie have many more exciting things they are working on, which have not been revealed yet. We are very excited to show you our finest experiences once they have been prepared.

# Department Highlight: Cabin Crew

**On this issue,** We are featuring the Cabin Crew department at Air Ollie. We decided to ask the department leaders about themselves and their departments.

## AlphaDxwson (Alex):

Hello! My name is Alex, I have been working in the Cabin Crew department for several months and it is my passion and upfront priority to impress and serve Air Ollie's customers to a high standard, which it is now my role to maintain and keep that barrier high. I am a keen aviation fan and have always been interested in travelling, and being able to share that passion with loads of people across Air Ollie's friendly community is amazing. Air Ollie has allowed me to share this passion into a larger community which I love and am proud to be a part of.

The Cabin Crew department, personally I'd say is one of the most exciting departments to work in. We have a variety of different roles and opportunities in one, and we have worked hard to maintain a friendly environment for all of us when communicating and working together each flight which reflects a perfect example for trainees & allows the customers to gain the best experience they came to Air Ollie looking for.

## CoolgamersidYT567 (Sid):

Hello! My name is Sid! I was so grateful to work as a Cabin Crew at Air Ollie, I joined Air Ollie early 2021 I still love working as a cabin crew to this day with new people to serve to a high standard. I have never always been into aviation but this year and last everything changed. Air Ollie is still growing and with Air Ollie having such a large community I was so grateful to help the large community Air Ollie has.

Cabin Crew is not only just serving on the plane, it's about helping people out in the large community we have and that is why I love the Cabin Crew department it's one of the great departments Air Ollie has to offer. With the Cabin Crew department as well it's not just working independent it's working as a team and together to give what the Air Ollie customers came for, thank you for reading this, have a good day!

### Advertisement

Hola! Welcome to AURA. We offer smooth and delightful trip for all of our customers that wish to fly with us. We try and provide the best aircraft and technology for all of our passengers. Our staff team is always ready to offer the best solutions for your problems if you have any, they act professional and try there hardest.
